arminlabs × JIVORA

ILADS 2026 · BOOTH #10

Reliable vector-borne testing, independently proven.

Already sending to a specialty lab? Ask it two questions: *are its methods independently assessed every year, and can it show whether treatment is working?* ArminLabs can, on both counts, now one QR away for North American practitioners.

CAP ACCREDITED · College of American Pathologists · Clinical Laboratory Improvements Amendments · DAkkS Deutsche Akkreditierungsstelle — German accreditation body ISO 15189 medical labs

CERTIFIED ANTIGENS

Round-body / persister antigen validated in peer-reviewed research (Garg K et al., Trop Med Infect Dis 2021;6(1):38). Third-party, certified antigens, not in-house lysates.

INDEPENDENTLY VALIDATED

Annual independent assessment under CAP and DAkkS accreditation, CLIA certified. Externally established and validated positive and negative thresholds for every test.

NOW EASY

Free Jivora account, collect at home with Tasso+ (eligible panels) or in your office, prepaid mail-back, RFID-tracked to Augsburg.

FLAGSHIP TESTS

TICKPLEX®
~95 / ~98
sensitivity / specificity %, incl. the persister form. TickPlex Plus adds 8 co-infections

ELISPOT
Assessing Activity
current T-cell activity provides effective data on pathogen virulence. Monitor quantitative reduction with effective treatment*
*Lehmann PV et al., Handbook of ELISPOT, Springer 2012

ISPOT
IFN-γ / IL-2
separates active infection from immune memory to gain insight on treatment success and relapse concern

CD57+
Cellular Burden
immune status related to intracellular infection and/or toxicants, baseline and retest, same draw

TOXIPLEX®
≥93%
accuracy, direct detection of 5 mycotoxins at 0.15 ppb when mold exposure is in the clinical picture (RUO assay)

HOW JIVORA SOLVES YOUR BIGGEST PROBLEMS

01 Scan & register

"New lab setups take weeks of paperwork."

Free practitioner account, live instantly. No contracts, no minimums, and a platform dedicated to vector- borne medicine, not a generic lab portal.

02 Order any panel

"Generic portals, surprise pricing."

Full ArminLabs catalog with transparent U.S. pricing before you order, superbill support for reimbursement, the highest cost-to-value in specialty testing.

03 Collect at home or in office

"Shipping blood to Germany sounds painful."

Tasso+ at home for eligible panels (~5 min) or a draw in your office. Prepaid mail-back, and your dashboard tracks every sample from "awaiting sample" to "results in."

04 Results & ongoing care

"Patients disappear between visits."

Results in your Jivora dashboard with complete interpretation. Symptom tracking, priority alerts, and retest reminders support ongoing care.

ONE PLATFORM, BOTH SIDES

HIPAA-grade · consent-gated · full audit log

Practitioner portal
Patient roster · granted-access charts · pre-filled lab requisitions · results with per-marker commentary · secure messaging · office hours

Member portal (your patient)
Daily symptom log with reward credits · protocol & refill reminders · symptom trends · retest prompts · revocable data sharing

SIGN UP BEFORE OCTOBER 24, 2026

25% OFF

ALL TEST ORDERS

Through November 30, 2026

Booth sign-ups enter a draw: one winner's 2027 ILADS **registration fee paid.**
